

Cuban Evangelism

August 25, 2015

Dear Friends,

Detente appears to be moving forward in our relations with Cuba.

Our embassy has reopened in Havana, but we see very little change on behalf of the Cuban government regarding relaxation of attitudes towards dissidents. By most accounts many thousands still remain incarcerated for their anti-government beliefs.

At the opening ceremonies of the new American embassy in Cuba, many were dismayed that members of the dissident community were uninvited. This was viewed by a number of Cubans as a snub for the peaceful resolution in regaining a meaningful relationship between our two countries.

CUBA

We continue to move forward along our pathway in Cuba. Our initial program was "each one teach one". This approach has, and continues, to work well as numbers have continued to grow as evidenced by the addition of two-plus congregations per month. Most of these congregations are spread from Havana to Matanzas, with a few now to the extreme eastern part of the island.

During the third week of January, 2016, a delegation of Spirit Quest International teachers will be in Cuba conducting seminars for the local ministries. Please keep us in your prayers as preparations are made for this most anticipated event. Your support is needed for these very important seminars. The more teachers that can travel to these meetings, the more strengthened will be our relationships and our foundation in Cuba. (Cuban ministry photos enclosed.)

THE MINISTRY OF SPIRIT QUEST INTERNATIONAL BEYOND CUBA:

COLOMBIA

Spirit Quest International was recently granted official religious recognition by the government of Colombia, (Spirit Quest International de Colombia). Such recognition signifies official acceptance by all South American countries, and is a blessing and a milestone for our ministry. We are rapidly expanding our presence throughout the country from our base in Bogata. Our representatives there tell us, "The people of South America are hungry for the knowledge of Jesus Christ and His saving grace."

VENEZUELA

Our Bible school, Instituto Biblico, located in San Cristobal, Venezuela, continues to produce new ministers and evangelists. Please keep Venezuela in your prayers as conditions continue to worsen in that nation under the present leadership of President Madura.

PERU

At this writing, two of our administrators are at a location along the banks of the Upper Amazon River. There they are conducting seminars and Bible classes to more than 50 ministers who have traveled by boat from many obscure locations along this great river. They will teach and preach for seventeen days before returning to the U.S. and Mexico. Please pray for their safety and success in this ministry.

(Please note that a special offering was taken at our 25th Anniversary Spirit Quest International Convention in June, 2015, that fully funded this work in Peru. As promised, all funds raised for Cuba are used specifically for the Cuban work.)

MEXICO

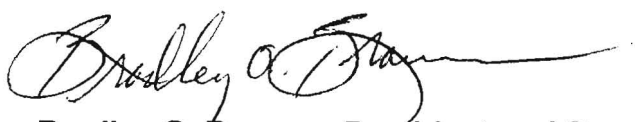

On October 21st, a delegation from the U.S. will travel to Leon, Guanajuato, MX, to take part in the Annual Convention of En Busca del Espiritu, the Mexican branch of Spirit Quest International.

Each year members and delegates come from all over Mexico to meet and praise the Lord during this three day convention. This year, team members will be selected for mission outreaches that will take them to Honduras and Guatemala later in the year. Please remember those that are willing to answer His Call and "Go into all the world to preach the gospel...."

THANK YOU.

Thanks again to you that have stood by this work with your prayers and gifts for our Cuban Evangelism project. Without you, much of what we are able to do would be impossible. But, in Christ, all things are possible.

Sincerely,

Bradley O. Brauser, President and Founder
